Summary of rating action

Instrument*	Previous Rated Amount (Rs. crore)	Current Rated Amount (Rs. crore)	Rating Action
Basel III Tier II bond programme	13.4	0.0	[ICRA]A+ (Positive); Withdrawn
Short-term fixed deposit programme	-	-	[ICRA]A1+; Rating put on notice of withdrawal for six months
Total	13.4	0.0	

*Instrument details are provided in Annexure I

Rationale

ICRA has withdrawn the rating assigned to the Basel III Tier II bond programme of DCB Bank at the bank's request as no amount is outstanding against these bonds. This is in accordance with ICRA's policy on the withdrawal of credit ratings. The short-term rating on the fixed deposits has been placed on notice for withdrawal for six months, in line with ICRA's policy on the withdrawal of ratings. The key rating drivers and their description, liquidity position, rating sensitivities, and key financial indicators have not been captured as the related instrument has been withdrawn. The previous detailed rating rationale is available at the following link : [Click here](#)

Complexity level of the rated instrument

Instrument	Complexity Indicator
Basel III Tier II bond programme	Highly Complex
Short-term fixed deposit programme	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)

Key features of rated debt instruments

The servicing of the Basel III Tier II bonds is expected to absorb losses once the point of non-viability (PONV) trigger is invoked by the Reserve Bank of India (RBI). The Basel III Tier II bonds have equity-like loss-absorption features. Such features may translate into higher loss severity vis-à-vis conventional debt instruments.
